Mathematics Teacher | Principal Examiner | Assessment and Curriculum Professional

Northampton, UK | +44 7561 034077 | niculaemihai1322@gmail.com

LinkedIn Profile | **Teaching Portfolio:** mihaien.github.io/Portofolio

Professional Profile

Qualified Mathematics teacher with a PGCE, QTS and a BSc (Hons) in Mathematics, with experience across UK secondary schools, international education and online learning. Experienced in teaching Mathematics across KS3–KS5, including GCSE, IGCSE and A-Level, alongside AP and SAT programmes for international learners.

My professional experience also includes principal examining, assessment design, curriculum development and quality assurance. I have contributed to the production and review of assessment materials, mark schemes, examiner guidance and schemes of work, while using performance evidence to support curriculum improvement and learner progress.

I aim to deliver structured and intellectually purposeful lessons that strengthen mathematical understanding, examination technique and learner confidence. I am particularly interested in effective assessment, educational technology and the responsible use of artificial intelligence to improve teaching, feedback and curriculum design.

Professional Experience

Teacher of Mathematics (KS3–KS5)

Aug 2026 – Present

New English School, Kuwait • Full-time

- Teach Mathematics across KS3–KS5 within a British international school, including GCSE and post-16 examination groups.
- Plan and deliver well-sequenced lessons that develop fluency, mathematical reasoning, problem-solving and independent learning.
- Use formative and summative assessment to identify misconceptions, monitor progress and provide targeted feedback and intervention.

Principal Examiner

Jun 2026 – Present

NCC Education • Contract / Flexible

- Lead assessment activity for Level 2 Introduction to Business Mathematics and Level 3 Developing Financial Forecasting & Accounts in Business.
- Review and quality assure assessment papers, mark schemes, examiner guidance and supporting qualification materials.
- Contribute to standardisation, examiner support and candidate performance analysis to maintain reliable and consistent assessment.

Teacher of Mathematics

Feb 2026 – Jul 2026

Sir Christopher Hatton Academy, Northampton • Full-time

- Taught Mathematics across KS3–KS5, including GCSE and A-Level classes with varied levels of prior attainment.
- Designed lessons that developed conceptual understanding, mathematical fluency, reasoning and examination technique.
- Supported departmental priorities through intervention, revision provision, collaborative planning and progress monitoring.

Assessment and Curriculum Associate

Nov 2025 – Present

Insights Education • Contract / Flexible

- Develop schemes of work, assessment materials and curriculum resources for international academic and progression programmes.
- Review learner performance and contribute to curriculum planning, intervention strategies and academic support.
- Produce learning materials focused on mathematical application, data interpretation, problem-solving and preparation for UK education.

Professional Experience continued

Mathematics Specialist

Aug 2025 – Jan 2026

LingoAce • Full-time

- Taught GCSE, IGCSE, A-Level, AP and SAT Mathematics to learners from a wide range of international and educational backgrounds.
- Adapted teaching to reflect individual starting points, examination specifications, learning needs and academic goals.
- Delivered targeted examination preparation, revision and feedback to improve confidence, accuracy and problem-solving.

Mathematics and Science Teacher

Nov 2024 – Jul 2025

IWS Online • Full-time

- Delivered Mathematics and Science across GCSE, IGCSE and A-Level programmes within a fully online learning environment.
- Created digital lessons, quizzes and assessments using Microsoft Teams, Moodle and a range of interactive teaching tools.
- Supported learners in developing effective revision strategies, independent study routines and examination confidence.

Data Analyst

Jun 2024 – May 2025

PsyFyi • Full-time

- Analysed quantitative and qualitative datasets using Python, SQL and Excel to identify trends and support project reporting.
- Applied statistical methods and data-cleaning processes to improve the accuracy and reliability of analytical outputs.
- Developed dashboards and visualisations using Excel, Power BI and Tableau, communicating findings clearly to project stakeholders.

Education

PGCE with QTS, Secondary Mathematics

2025–2026

Birmingham Newman University

BSc (Hons) Mathematics

2022–2025

University of Greenwich

A-Levels

Mathematics (A), Further Mathematics (A), English Literature (B), Psychology (C)

Professional Development and Certifications

Build a Reflective AI Practice Over Time

May 2026

Module assessment passed

Generative AI for Educators Certificate

Mar 2026

Google & MIT RAISE

Certificate in Economic Analysis and Data Analytics

Oct 2023

International Institute of Business Analysis (IIBA)
